

EANN – 2023

15th Quadrennial Congress of The European Association of Neuroscience Nurses Program at a glance

	Time	Room A – 250 seats	Room B – 115 seats
May 25th	9:00-9:30	Opening ceremony: President EANN – Neal Cook Welcome: Ólafur Skúlason, Chief Nursing Officer at Landspítali University Hospital President IANN: Guðrún Jónsdóttir	
	9:30-10:00	Keynote - Miriam Parry The role of the Parkinson disease nurse	
	10:10-10:30	COFFEE BREAK	
	10:30-12:00	Chair: Ingibjörg Tómasdóttir Young people and adults with Epilepsy – contributing to quality of life and better service Experiences and self-care needs of adolescents with epilepsy (AWE) in transition from pediatric to adult hospital care: a systematic review of qualitative evidence: <u>Ole Abildgaard Hansen</u> (66) Educational project dedicated to school teachers for the correct management of epileptic seizures in school-age children: <u>Andrea Giuffrida</u> (50) Young adults' experiences with self-initiated technologies in everyday life with epilepsy. A qualitative study: <u>Liv Hjørhøy</u> (36) Epilepsy nurse telephone service. A review within a large teaching hospital in Ireland: <u>Brenda Liqqan</u> (62) Short Q/A Panel of speakers	Chair: Guðrún Jónsdóttir Advanced decision-making in complex patients The empathetic involvement of Nurses in the contexts of Neuroscience: a mixed-method study: <u>Federico Cortese</u> (52) Neuroscience Benchmarking: Challenging Behaviours in Neuroscience in the UK: <u>Catheryne Waterhouse</u> (81) Assessing Mental Capacity in the UK Addressing Dilemmas in Practice: <u>Catheryne Waterhouse</u> (82) Making space for care: Locating the role of nursing in a neuro-oncology clinic: <u>Shane Ward</u> (97) Short Q/A Panel of speakers
	12:00-13:00	LUNCH and poster walk	
	13:00-14:30	Chair: Helga Kristín Thorsteinsdóttir Symposium: Amyotrophic lateral sclerosis decision-making and lived experiences The experience of having a spouse with Motor Neurone Disease – from diagnose until death: A qualitative study: <u>Sólveig Haraldsdóttir</u> (75) Decision-making of end-of-life care for neurological patients in an acute hospital ward: <u>Guðrún Jónsdóttir</u> (98) Supporting patients with ALS – an Icelandic perspective from a relative <u>Guðrún Kristjánsdóttir</u> and a healthcare professional <u>Bryndís S. Halldórsdóttir</u> Short Q/A Panel of speakers	Chair: Ole Abildgaard Assessment, surveillance, and management of patients in the ICU and neurosurgery Nursing management of discomfort experienced by the neurosurgical patient during the awake craniotomy surgery: <u>Irene Mansutti</u> (92) Depth of Anesthesia Monitoring in Norway: a web-based survey: <u>Anders Aasheim</u> (7) The Impact of Specialised Neurointensive Care Units Compared to General Intensive Care Units on In-Hospital Mortality of Adult Patients with Traumatic Brain Injury: <u>Leonardo Marta Teixeira</u> (45) Development of Care Bundles for Patient Surveillance in a Neurosurgical High-Dependency Care Unit: <u>Maria Kristjánsdóttir</u> (37) Short Q/A Panel of speakers

	14:30-16:00	<p>Chair: Maria Kristjánsdóttir</p> <p>Impact of brain injury and patient support and outreach</p> <p>Storm in a Teacup? The challenges and complexities of the management of Paroxysmal Sympathetic Hyperactivity described through a case study: <u>Anne Preece</u> (32)</p> <p>Building a scientific database of traumatic brain injury in Iceland: Strategy and preliminary results nested within a big dataset: <u>Karl F. Gunnarsson</u> (80)</p> <p>Nursing interventions to manage delirium in a neurosurgical context: <u>Sofia Callander</u> (56)</p> <p>An evaluation of the peer support service provided by patients and carers following subarachnoid haemorrhage through participation in online and face-to-face support groups: <u>Catherine Lamb</u> (2)</p> <p>Short Q/A Panel of speakers</p>	<p>Chair: Jónína H. Hafliðadóttir</p> <p>Improving positive experiences and safety for patients with Parkinson's disease</p> <p>Medication administration in acutely admitted Parkinson's patients in non-neurology wards at Landspítali University Hospital – Evaluation of a quality improvement intervention: <u>Snædís Jónsdóttir</u> (47)</p> <p>Home-based titration with Duodenal infusion of Levodopa in People with Parkinson's disease: an observational feasibility study: <u>Trine Hørmann Thomsen</u> (9)</p> <p>Dancing with my Partner, not Mr. Parkinson: <u>Anita Haahr</u> (10)</p> <p>Parkinson in Iceland – A patient's perspective. <u>Salóme Gunnarsdóttir</u></p> <p>Short Q/A Panel of speakers</p>
	16:00-16:20	COFFEE BREAK	
	16:20-17:00	<p>Short session – Ástrós Sverrisdóttir</p> <p>Stroke – acute management</p> <p>Mobilisation in the acute stages after stroke – effects on the patient's functional outcome: a literature review <u>Karin Crantz</u> (40)</p> <p>Post-stroke seizure nursing assessment and priorities: <u>Cynthia Bautista</u> (85)</p>	<p>Short session – Chair Ingibjörg Tómasdóttir</p> <p>Exploring “hard to grasp” experiences - Sleep and anosognosia</p> <p>A qualitative study on post stroke sleep: Floating in a space between being awake and asleep: <u>Ida Kathrine</u> (105)</p> <p>Experience Of Nurses Caring for Patients With Anosognosia: An Exploratory Qualitative Study: <u>Tommaso Lupi</u> (88)</p>
	17:00-18:30	Get together in the lounge of Hotel Nordica	

	Time	Room A – 250 seats	Room B – 115 seats	Room H – 70
May 26th	9:00-10:00	Keynote – Sandy Middleton From clinical trial to large scale translation: Upscaling the implementation of Fever, Sugar (Hyperglycaemia) and swallow Protocols (FeSS) following stroke into every day clinical practice		
	10:00-10:10	Energy speaker		
	10:10-10:30	COFFEE BREAK		
	10:30-12:00	Chair: Ingibjörg Tómasdóttir Dysphagia and meeting complex nutritional challenges. Implementing Dysphagia Screening for Acute-Stroke Patients: <u>Johanna Martin</u> (95) The Effect of a Seminar on Dysphagia and Safe Nutrition in Stroke on the Knowledge Level of Nurses Working in Neurology Clinics: <u>Aysel Çavuşoğlu</u> (69) Undernutrition following acquired moderate to severe brain injury: A longitudinal study across sectors: <u>Lena Aadal</u> (18) Eating with dignity. Exploring how eating can be improved for people with amyotrophic lateral sclerosis, with focus on pureed diets: <u>Guðlaug Gísladóttir</u> (26) Short Q/A Panel of speakers	Chair: Cath Waterhouse Symposium: Multiple sclerosis care and the evolving role of the nurse. Supporting the person with MS through their journey: Pharmacological treatments: <u>Jörg Kraus</u> (76) Supporting the person with MS through their journey: Management of symptoms: <u>Piet Eelen</u> (77) Nursing care and support throughout the journey of a person living with MS: <u>Giampaolo Brichetto</u> (78) Working difficulties and related factors among Patients with ms? <u>Zeliha Tulek</u> (39) Short Q/A Panel of speakers	Chair: Solveig Haraldsdóttir Issues and everyday concerns in specialized nursing assessment in neurology Neurological observation education in pre-registration. Nursing: Who, what and how? The launch of an international survey of nurse academics: <u>Claire Lynch</u> (51) Neuroscience education – Evaluating the impact of a bespoke University validated ‘Neuroscience Care and Management’ course: <u>Ruth Trout</u> (22) Assessment of limb strength by neuroscience nurses – variations in practice and associated challenges from a UK and Irish survey: <u>Mary Braine</u> (17) What is that neurological exam telling me?: <u>Cynthia Bautista</u> (86) Short Q/A Panel of speakers
	12:00-13:00	LUNCH		
	12:15-13:00	Merck Medical Grand Rounds Optional interactive session on MS in room B while enjoying your lunch		
	13:00-14:30	Chair: Guðrún Jónsdóttir Complex and diverse issues related to patients with a neurological disorders Long Term Effects of Toxic Stress on the Growing Brain: <u>Cathy Cartwright</u> (5) Retinal biomarkers in Parkinson’s disease: Retinal oximetry, pattern electroretinography (PERG), visual evoked potentials (VEP) and optical coherence tomography (OCT): <u>Pórunn Scheving Eliasdóttir</u> (48)	Chair: Snædís Jónsdóttir New perspectives on Parkinson’s disease – assessment and treatment PD Complex therapies- identifying, assessment and management’ 1-hour WORKSHOP led by Kelley Storey and Miriam Parry What difference does a PD coordinator make for people with Parkinson’s disease and family carers? <u>Anita Haahr</u> (12) Short Q/A Panel of speakers	Chair: Maria Kristjánsdóttir Contemporary perspectives in neurosurgery, education, and recovery COVID-19 and Elective Spine Surgery: The Older Persons’ Experience of Going it Alone: <u>Andrea Strayer</u> (35) A new protocol to reduce Interventional Neuroradiology elective cancellations post COVID: <u>Michelle Taylor</u> (65) The impact of the Covid-19 pandemic on the evolution of functional dependence in

	<p>Evaluation of Pregnancy, Delivery and Postpartum Experiences of Patients with Multiple Sclerosis: <u>Sevda Öztürk Erden</u> (73)</p> <p>Home service solution for patients treated symptomatically with intrathecal baclofen: <u>Lena Skovgård Petersen</u> (4)</p> <p>Short Q/A Panel of speakers</p>		<p>patients admitted to a neuro-rehabilitation ward: a retrospective observational study: <u>Elena Petri</u> (94)</p> <p>The functional recovery of patients admitted to a neuro-rehabilitation ward: a retrospective observational study <u>Davide Caruzzo</u> (91)</p> <p>Short Q/A Panel of speakers</p>
14:30-16:00	<p>Chair: Guðlaug Gísladóttir</p> <p>Advanced decision-making and practices</p> <p>External cerebrospinal fluid (CSF) drainage system: Monitoring adherence to best practice guidelines <u>Elenita Robinson</u> (70)</p> <p>Building an Ex-Vivo Model of Intracranial Dynamics to Examine External Ventricular Drain Management: <u>Giovanni Kanter</u> (23)</p> <p>Implementation of robot-assisted early mobilization in ICU nursing processes - data and experiences: <u>Uli Fischer</u> (43)</p> <p>Treatment decisions for acute ischemic stroke using advanced imaging: <u>Rachel Malloy</u> (6)</p> <p>Short Q/A Panel of speakers</p>	<p>Chair: Ásta B. Pétursdóttir</p> <p>Friendly environments, person-centered quality improvement and communication technologies</p> <p>Hospitality in dementia-friendly environments is significant to caregivers during hospitalisation of their loved ones. A qualitative study: <u>Susanne Kristiansen</u> (20)</p> <p>The use of next of kin and bereaved experience data for quality improvement in healthcare settings: a mixed method systematic review: <u>Marie Fält</u> (57)</p> <p>Comparison of communication between patients, relatives, and healthcare professionals during hospitalization for Neurological diseases: A qualitative Photovoice study: <u>Janet Froulund Jensen</u> (28)</p> <p>Brain Computer Interface Technology Use with People with Disorders of Consciousness or Locked-in Syndrome: The Lived Experience of Families: <u>Andrea Shepherd</u> (15)</p> <p>Short Q/A - panel of speakers</p>	<p>Chair: Marianne E. Klinke</p> <p>Sandy Middleton presenting: Are we using the data we have to improve the quality of care? Australian and European experience? (30 mins including Q&A)</p> <p>60-minute Q&A panel of speakers addressing the subject: How to get started in nursing research - led by Sandy Middleton</p> <p>Panel members: Neal Cook Simeon Dale Marianne E. Klinke Zeliha Tulek</p>
16:00-16:30	COFFEE BREAK		
16:30-17:00	<p>Keynote - Simeon Dale</p> <p>A qualitative process evaluation of the Quality in Acute Stroke Care global scale-up using a cascading facilitation framework</p>		
18:30	Bus pick-up for conference dinner kl. 18:30 at Hotel Hilton		

	Time	Room H – 120 seats	Room I – 110 seats
May 27	9:00-10:30	<p>Chair: Sólveig Haraldsdóttir</p> <p>Neurorehabilitation and health enhancing activities</p> <p>Temporal changes in demographic and injury characteristics of traumatic spinal cord injuries in Nordic countries - a systematic review with metaanalysis: <u>Maria Moschovou</u> (58)</p> <p>Humour as a nursing intervention: <u>Aschwin Van Loon</u> (1)</p> <p>Master’s Program in Clinical Nursing – Neuroscience Nursing: <u>Ase Humberset</u> (101)</p> <p>Determining Return to Work Life, Work Productivity and Activity Impairment of Patients in the Early Post-Stroke Period <u>Zeliha Tulek</u> (42)</p> <p>Short Q/A Panel of speakers</p>	<p>Chair: Snædís Jónsdóttir</p> <p>Fundamentals of care and health enhancing care practices of neuro-nurses</p> <p>Fundamentals of Care in national clinical quality databases in Denmark: What is monitored and is it related to nurse representation on the steering committee: <u>Lene Odgaard</u> (13)</p> <p>Patient safety improving by nurses: <u>Vita Balčienė</u> (84)</p> <p>Nursing physical assessment in neurosciences in a tertiary hospital: standardization improves practice: <u>Patrick Teixeira Machado</u> (87)</p> <p>Speech recognition a tool for nursing documentation: <u>Riitta Danielsson-Ojala</u> (83)</p> <p>Short Q/A Panel of speakers</p>
	10:30-11:00	COFFEE BREAK	
	11:00-11:30	Keynote: Neal Cook – Are we providing person centered care?	
	11:30-12:00	CLOSING CEREMONY	
		<p>Closing remarks</p> <ul style="list-style-type: none">• President of EANN.• Chairman of local committee. <p>Awards</p> <ul style="list-style-type: none">• Daisy award WFNN. Video• Awards poster and presentation <p>Upcoming congresses:</p> <ul style="list-style-type: none">• WFNN Darwin 2025.• EANN - next congress
